

QUALITY POLICY

It is the stated intention of the company to create an efficient, well run contracting organisation where all participants are made fully aware of our endeavour to achieve the highest possible standard practicable within our industry. To achieve this, it is necessary that every member of the company, whether managerial, clerical or site operative, is clearly aware of the requirements placed upon him or her and the importance of his or her communication and procedures with check points which are carried out automatically and properly documented.

To this end, there must be laid down clear lines of communication and procedures with check points which are carried out automatically and properly documented. The company will maintain a quality management system that meets the requirements of ISO 9001:2015. The Company has a commitment to the continual improvement of the quality management system which is driven through the internal audit programme and annually held management review meetings where quality objectives are both set and reviewed.

The authority for the administration of this quality management system has been delegated to the management representative whose responsibility it is to ensure that all section of this manual is fully complied with at all times. Should a situation arise where there appears to be a problem which cannot be resolved by the management representative, it will immediately be brought to the attention of the Managing Director for discussion and final resolution. This manual is issued on the understanding that it is strictly confidential to the individual or organization concerned and must not be shown or reproduced without the permission of the management representative and Managing Director of the Company.
